

Healthy Communities Need Clean Air

What causes pollution?

Heating and cooling our homes, driving cars and trucks, and making the things we need. Weather can affect pollution and move it around.

How is pollution harmful?

Pollution impacts human health and can harm plants, animals, and the environment.

What can we do to reduce pollution?

Together we can reduce air pollution by using less energy in our homes, schools, work, and for getting around.

Birds love healthy air, just like people. How many birds can you find enjoying the clean air?

Let's all do our part to keep the air we share healthy!
